My dear Frank:

I acknowledge yours of the 11th to which you attached Japan's "Mein Kampf" and frankly, Frank, we are not interested in doing this type of short. In the first place we could not get it out under three or four months and it is the type of thing best done by March of Time or newsreel and we feel that with all our service short subjects we are contributing all the propaganda that we can handle.

The man to contact at March of Times is DeRochemont. Harry Rosenquest can give you this information when you come to New York.

Kind regards.

Cordially,

Norman H.Moray
